

Clean

## CitraClean

CitraClean is an industrial-strength degreaser that cleans and removes grease, dirt and grime from surfaces while deodorizing and maintaining surface texture and appearance. CitraClean can be used to clean any surfaces where water rinsing is practical.

### ENVIRONMENTAL IMPACT

CitraClean is biodegradable and contains no butyl solvents, chlorinated solvents, EDTA, NTA or other toxic substances.

### HOW TO USE:

1. Dilute CitraClean according to the surface to be cleaned. 1:5 for heavy-duty cleaning/ degreasing, 1:25 for light-duty cleaning.
2. Spray CitraClean solution to thoroughly wet the surface. Allow to soak into the concrete for 20-30 minutes and then scrub the area with a stiff-bristle brush/ broom.
3. Rinse off thoroughly with water or flush with a strong water spray.

### DESCRIPTION

Pack size	: 5 litres / 25 litres
Type	: Water-based non-flammable degreaser
Colour	: Yellow
Odour	: Citrus
Toxicity	: Non-toxic- Do not ingest
Flammability	: Non-flammable
Composition	: Biodegradable surfactants and citrus solvents with non-butyl solvent boosters. Contains no EDTA or NTA
